

Conference Chairs:

David Guiraud

Nigel Lovell

Program Chairs:

Thomas Stieglitz

Christine Azevedo-Coste

EMBS Executive Office:

Jessica Lotito, CMP, IEEE EMBS

You are cordially invited to join us at the 7th International IEEE EMBS Conference on Neural Engineering, which will be held at the Corum Convention Center, Montpellier, France from 22-24 April 2015.

Members of both the Neuroscience and Engineering Communities are encouraged to attend this highly multidisciplinary meeting. The conference will highlight the emerging engineering innovations in the restoration and enhancement of impaired sensory, motor, and cognitive functions, novel engineering for deepening knowledge of brain function, and advanced design and use of neurotechnologies.

Neural engineering draws expertise from computational neuroscience, neurology, neurosurgery, biomedical and electrical engineering, computer science, materials engineering, biomaterials, and cell and molecular biology. Through innovations in neurotechnology the community seeks to synergize scientists, engineers, and clinicians toward improved medical therapies.

For more details, please visit: <http://neuro.embs.org/2015/>.

Please note that this invitation for participation does not, in any way, financially oblige either NER'15 or the IEEE Engineering in Medicine and Biology Society (EMBS) for the expenses you incur for travel and conference attendance, and all conference participants are expected to pay the registration fees according to conference policy.

We look forward to your participation in NER'15!

Sincerely,

David Guiraud

NER'15 Conference Chair
